

# C3M0120090D

# Silicon Carbide Power MOSFET C3M MOSFET Technology

N-Channel Enhancement Mode

#### **Features**

- C3M SiC MOSFET technology
- High blocking voltage with low On-resistance
- · High speed switching with low capacitances
- Fast intrinsic diode with low reverse recovery (Qrr)
- · Halogen free, RoHS compliant

#### **Benefits**

- Higher system efficiency
- Reduced cooling requirements
- Increased power density
- Increased system switching frequency

#### **Applications**

- Renewable energy
- EV battery chargers
- High voltage DC/DC converters
- Switch Mode Power Supplies
- Lighting

#### **/**<sub>ps</sub> 900 V

I<sub>D @ 25°C</sub> 23 A

 $R_{DS(on)}$  120 m $\Omega$ 

#### **Package**

| Part Number | Package  | Marking    |
|-------------|----------|------------|
| C3M0120090D | T0-247-3 | C3M0120090 |

#### Maximum Ratings (T<sub>c</sub> = 25 °C unless otherwise specified)

#### **Notes**

#### RoHS Compliance

The levels of RoHS restricted materials in this product are below the maximum concentration values (also referred to as the threshold limits) permitted for such substances, or are used in an exempted application, in accordance with EU Directive 2011/65/EC (RoHS2), as implemented January 2, 2013. RoHS Declarations for this product can be obtained from your Cree representative or from the Product Documentation sections of www.cree.com.

#### REACh Compliance

REACh substances of high concern (SVHCs) information is available for this product. Since the European Chemical Agency (ECHA) has published notice of their intent to frequently revise the SVHC listing for the foreseeable future, please contact a Cree representative to insure you get the most up-to-date REACh SVHC Declaration. REACh banned substance information (REACh Article 67) is also available upon request.

This product has not been designed or tested for use in, and is not intended for use in, applications implanted into the human body
nor in applications in which failure of the product could lead to death, personal injury or property damage, including but not limited
to equipment used in the operation of nuclear facilities, life-support machines, cardiac defibrillators or similar emergency medical
equipment, aircraft navigation or communication or control systems, air traffic control systems.
